

Cabin Descriptions

All cabins have adjacent parking for one car. There is additional parking at a central parking lot. Most cabins have their own small fire ring with grate for cooking. Barbecues are available to use at each cabin. All cabins have tiled showers.

We have 7 two-bedroom cabins (cabins A - G). These cabins are closest to the lake.

Cabins B-G

The cabins feature 2 bedrooms with queen beds. Two cots can be added. The shower/toilet is off one of the bedrooms. The kitchen is between the bedrooms. The main, screened entry door is into the kitchen. It has a small dining table - it is cozy. The refrigerator is full size. The range is gas, open burners, and there are no ovens. The front bedroom has a dining table/work table up against a window (with a view of the lake). The enclosed front porch (no stair access or screens) overlooks the lake and also has a table and chairs. Guests often use this front porch as their "living room."

Cabin A (the largest) is similar to the other cabins, but differs in that it has a front "living" room that has a twin bed and can accommodate 2 cots to sleep 5-7 guests. Its ceilings are high and the bathroom is off the hall, not through a bedroom. The front porch is not covered, but has a table with umbrella and stairs down. One bedroom has a queen and the other a full mattress.

Cabins I, J, K, M (there is no cabin H).

We have five one-bedroom cabins: These cabins face the common area and have a view of the lake. Entry is through an enclosed (no screens), covered, front porch into the front room. There is a side door into the back room. Both doors have screen doors. The front room is the bedroom with a queen-size bed. The kitchen has a gas range with 3 burners, but no oven. The refrigerator is full size. The bathroom is off the kitchen.

Cabin I is fondly referred to as Hilltop. It has a small side porch facing the morning sun.

Cabin K The front room is the kitchen. The bedroom has a side porch. The bathroom is off the bedroom.

Cabin L (formerly the manager's cabin).

Front porch with small table. The front room has a queen-size bed. The kitchen has a complete range top/oven unit. There is a large deck/porch at the kitchen entry. This cabin uses the common area fire ring.

Cabin M

This cabin uses the common area fire ring.
